

TERMS AND CONDITIONS

Official Agreement for WhatsApp Bulk Messaging & Analytics Platform

By accessing and utilizing this platform, you agree to the following professional terms and conditions. Our system is designed to provide seamless business communication with full transparency in billing and analytics.

1. Wallet & Financial Transactions

Our platform operates on a secure pre-paid wallet system. Users can recharge their wallet through integrated secure payment gateways.

- **Balance Visibility:** Current wallet balance is displayed in real-time on the user dashboard.
- **Transaction History:** Every recharge and deduction is recorded in the Transaction History section for complete transparency and accounting.
- **Billing:** Charges are applied per message based on the message category approved by Meta.

2. Failed Message Refund Policy

Automatic Credits: In our commitment to fairness, if a message fails to initiate due to internal technical errors or system malfunctions, the corresponding amount will be automatically refunded to your wallet balance.

Refunds will be clearly reflected in your Transaction History. Please note that messages failing due to invalid recipient numbers or recipient blocks (from the user side) are subject to standard API charges.

3. Contact Management & CSV Uploads

Users can manage their audience by uploading CSV sheets. By using this feature, you agree that:

- You own the legal rights and consent to message the contacts in your uploaded sheets.
- The platform uses enterprise-grade encryption to protect your contact data.
- Uploaded data is used strictly for campaign execution and is not shared with third parties.

4. Dashboard Reports & Data Analytics

The platform provides advanced Graphical Reports and Charts to visualize campaign performance. These insights include:

- Total Campaigns sent vs. successful delivery.
- Real-time tracking of 'Sent', 'Delivered', and 'Read' statuses.
- Interactive Bar and Donut charts for high-level management overview.

5. Anti-Spam & Ethical Usage

Users must comply with Meta's Business Messaging Policy. We maintain a zero-tolerance policy towards spam. Accounts found violating these rules may be suspended without refund of the remaining wallet balance.
